

# THE "BABY & ME" VISIT

## BEACHSIDE SMILES

**FREE FIRST VISIT FOR AGES 1 & 2!**

**We recommend a "Baby & Me" visit after your babies first birthday! You can make a "Baby and Me" appointment at our office for your child between the ages of 1 and 2. At 3 years old, your child will be considered a normal visit with our office.**

Dr. Robison will do an examination to check your babies teeth for decay and proper tooth eruption. At this visit, it is mandatory that a parent or legal guardian be in the back with your baby as we will perform what's called a knee-to-knee examination which will be done on the parent or legal guardian's lap.

Our highly trained pediatric team will discuss proper oral hygiene at home and provide you with tips and tricks. Please feel free to ask our staff any questions you may have at this visit.

Establishing a dental home with your child between the ages of 1 and 2 is beneficial for you and your baby. Consistency in a familiar atmosphere can help prevent them from having dental anxiety and fears in the future. Our office has a general adult side as well for when your baby grows to be your adult baby!

### **PLEASE DO NOT USE THE FOLLOWING WORDS:**

- Needle
- Shot
- Pull
- Hurt

We like for parents to tell the kids that the visit is going to be fun, and they are coming to have their teeth counted.
