

When does an ortho patient need to have wires taken off for Beachside Smiles?

Xrays

Fillings

Extractions

This means you as the parent/guardian will be responsible for calling to set up a "wire removal appointment" with your child's orthodontist right before your appointment with Beachside Smiles. You will then go back to the orthodontist after your appointment with Beachside Smiles to have the wires put back on.

****New patients will be required to have wires removed as we take a full set of xrays at new patient appointments.**
